Extracting maximum torque and horsepower from engines is an art as well as a science. David Vizard is an engineer and more aptly an engine building artist who guides the reader through all the aspects of power production and high-performance engine building. His proven high-performance engine building methods and techniques are revealed in this all-new edition of How to Build Horsepower. Vizard goes into extreme depth and detail for drawing maximum performance from any automotive engine. The production of power is covered from the most logical point from the air entering the engine all the way to spent gasses leaving through the exhaust. Explained is how to optimize all the components in between, such as selecting heads for maximum flow or port heads for superior power output, ideal valvetrain components, realizing the ideal rocker arm ratios for a particular application, secrets for selecting the best cam, and giving unique insight into all facets of cam performance. In addition, he covers how to select and setup superchargers, nitrous oxide, ignition and other vital aspects of high-performance engine building.

Paul Chowder is a poet, but he's fallen out of love with writing poems. He hasn't fallen out of love with his ex-girlfriend Roz, though. In fact he misses her desperately. As he struggles to come to terms with Roz's new relationship with a doctor, Paul turns to his acoustic guitar for comfort and inspiration, and fills his days writing protest songs, going to Quaker meetings, struggling through Planet Fitness workouts, wondering if he could become a techno DJ, and experimenting with becoming a cigar smoker. Written in Baker's beautifully unconventional prose, and scored with musical influences from Debussy to Tracy Chapman to Paul himself, *Travelling Sprinkler* is an enchanting, hilarious, and deeply necessary novel. 'I think the job of the novelist is to write about interesting things, including things that might not seem all that interesting at first glance, and to offer evidence

that life is worth living' Nicholson Baker
