RIVERS LONDON

A general biographic dictionary Cambridge University Press
 In Justifying Christian Aramaism Eveline van Staalduine-Sulman explores how Christian scholars of the sixteenth and early seventeenth century justify their study of the Targums, the Jewish Aramaic translations of the Hebrew Bible.
Dictionary of Greek and Roman Biography and Mythology Clarendon Press
 This is the first full-length study of the place and meaning of pilgrimage in European Renaissance culture. It makes new material available and also provides fresh perspectives on canonical writers such as Rabelais, Montaigne, Margurite de Navarre, Erasmus, Petrarch, Augustine, and Gregory of Nyssa.
 Wes Williams undertakes a bold exploration of various interlinking themes in Renaissance pilgrimage: the location, representation, and politics of the sacred, together with the experience of the everyday, the extraordinary, the religious, and the represented. Williams also examines the literary formation of the subjective narrative voice in his texts, and its relationship to the rituals and practices he reviews. This wide-ranging and timely new work aims both to gain a sense of the shapes of pilgrim experience in the Renaissance and to question the ways in which recent theoretical and historical research in the area has determined the differences between fictional worlds and the real.
Dictionary of Greek and Roman Biography and Mythology BRILL
 This graded reader may be used as a supplement to first-year

Latin texts or as a review tool. Each review features two readings that acquaint the student with the chief events of Roman history and stories from Greek mythology. An outline of grammar eliminates the need to consult other sources.
The biographical dictionary of the Society for the diffusion of useful knowledge [ed. by G.Long]. London Taylor and Walton 1850.
 This book situates the medieval manuscript within its cultural contexts, with chapters by experts in bibliographical and theoretical approaches to manuscript study.
Elementary Latin Translation Routledge
 Through entries on 291 Italian books (451 editions) published in England during the reign of Queen Elizabeth I, covering the years 1558-1603, this catalogue represents a summary of current research and knowledge of diffusion of Italian culture on English literature in this period. It also provides a foundation for new work on Anglo-Italian relations in Elizabethan England. Mary Augusta Scott's 1916 Elizabethan Translations from the Italian forms the basis for the catalogue; Soko Tomita adds 59 new books and eliminates 23 of Scott's original entries. The information here is presented in a user-friendly and uncluttered manner, guided by Philip Gaskell's principles of bibliographical description; the volume includes bibliographical descriptions, tables, graphs, images, and two indices (general and title). In an attempt to restore each book to its original status, each entry is concerned not only with the physical book, but with the human elements guiding it through production: the relationship with the author, editor, translator, publisher, book-seller, and patron are all

recounted as important players in the exploration of cultural significance. Renaissance Anglo-Italian relations were marked by both patriotism and xenophobia; this catalogue provides reliable and comprehensive information about books and publication as well as concrete evidence of what elements of Italian culture the English responded to and how Italian culture was acclimatized into Elizabethan England.
