FULLER GILLIAN

The Brave Little Turtle Houghton Mifflin Harcourt
Follows the life of a sea turtle from its hatching on a beach, through its years in the sea, and its return to land where it lays its eggs.

The Smallest Turtle Candlewick Press
Dive into the world's oceans to explore the adventurous lives of one of the oldest living animals. Descended from enormous prehistoric creatures, sea turtles are fascinating. Hatched from

eggs smaller than a baseball, some can grow to weigh over a thousand pounds. Once adults, they can live to be around 100 years old. And when it's time to nest, they migrate more than 1,000 miles. With colorful, clear illustrations and straightforward text, Gail Gibbons introduces the eight kinds of sea turtles living in the ocean today. Learn the similarities and differences with labeled diagrams and experience the hatching of the tiny turtle babies with detailed illustrations. This updated edition now includes the most up-to-date information about these beloved reptiles, as reviewed by an expert vetter in the field of herpetology. *Sea Turtles* also gives young readers an accessible overview of how the lives of these large reptiles have become

threatened and discusses the conservation efforts currently taking place. Ideal for aspiring oceanographers, this brightly-illustrated book is a perfect introduction to the subject.

Turtle Island Walker Childrens

The story of an ancient sea turtle and what its survival says about our future, from the award-winning writer and naturalist Though nature is indifferent to the struggles of her creatures, the human effect on them is often premeditated. The distressing decline of sea turtles in Pacific waters and their surprising recovery in the Atlantic illuminate what can go both wrong and right from our interventions, and teach us the lessons that can be applied to restore health to the world's oceans and its creatures. As *Voyage of the Turtle*, Carl Safina's compelling natural history adventure makes clear, the fate of the astonishing leatherback turtle, whose ancestry can be traced back 125 million years, is in our hands. Writing with verve and color, Safina describes how he and his colleagues track giant pelagic turtles across the world's oceans and onto remote beaches of every continent. As scientists apply lessons learned in the Atlantic and Caribbean to other endangered seas, Safina follows leatherback migrations, including a thrilling journey from Monterey, California, to nesting grounds on the most remote beaches of Papua, New Guinea. The only surviving species of its genus, family, and suborder, the leatherback is an evolutionary marvel: a "reptile" that behaves like a warm-blooded dinosaur, an ocean animal able to withstand colder water than most fishes and dive deeper than any whale. In his peerless prose, Safina captures the delicate interaction

between these gentle giants and the humans who are finally playing a significant role in their survival. "Magnificent . . . A joyful, hopeful book. Safina gives us ample reasons to be enthralled by this astonishing ancient animal—and ample reasons to care." -- The Los Angeles Times

Lesson Plans Level 6: Turtles/a Home for Turtle Scholastic Inc.

When his beloved jack-o'-lantern starts to decompose, Tim puts it outside and watches it transform from pumpkin—to seed—to pumpkin again. The first pumpkin Tim ever carved was fierce and funny, and he named it Jack. When Halloween was over and the pumpkin was beginning to rot, Tim set it out in the garden and throughout the weeks he watched it change. By spring, a plant began to grow! Will Hubbell's gentle story and beautifully detailed illustrations give an intimate look at the cycle of life.

THE OCEAN comes an inspiring tale of friendship and belonging that's perfect for fans of THE SNAIL AND THE WHALE, OWEN AND MZEE, and Oliver Jeffers's LOST AND FOUND. Turtle is big. But the ocean is bigger. And Turtle is all alone. Until four shipwrecked folks--a bear, an owl, a frog, and a cat--climb to safety on his shell. Before long, they're fast friends, and the sea doesn't seem so vast anymore. But when Frog confides that he misses his family, Turtle doesn't understand. Isn't he their family? And when the group decides to sail for home, will Turtle be left behind? Never fear--a surprise on the horizon promises friends, family, and a home at last. Uplifting and heartfelt, this is a book about the power of friendship and making a home of one's own.

When Koala Lou's mother becomes so busy that she forgets to tell her firstborn how much she loves her, Koala Lou enters the Bush Olympics, intending to win an event and her mother's love all at one time. "A first-rate choice for bedtime, story hour, or reading aloud."--The Horn Book

National Geographic Kids Mission: Sea Turtle Rescue

Macmillan

An irresistibly cute story about finding the confidence to be yourself, starring a turtle in search of the perfect shell. Terrance the turtle was born without a shell, so he uses a cardboard box

instead. Terrance loves his box. It keeps him dry on soggy days, safe from snooping strangers, and is big enough to cozy up with a friend. But when another turtle points out that Terrance's shell is, well, weird, he begins to wonder whether there might be a better shell out there... Eventually, and through much trial and error, Terrance learns that there's nothing wrong with being different--especially when it comes to being yourself.

Voyage of the Turtle Redleaf Press

Breathing new life into traditional storytelling, David McLimans takes an exciting step into the world of folktales with another stunning visual feast. At the start of Big Turtle, the world only had

two parts: the animals in the lower Water World and the people above in the Sky World. When Sky Girl falls to the sea, she is saved by two beautiful swans but is unable to return to her sky home. Big Turtle suggests building a new home for Sky Girl on his great shell using earth from the bottom of the sea, so Otter, Muskrat, and Beaver each attempt to reach the ocean's bottom. Only little Toad is able to bring enough earth to the surface to place on Big Turtle's back-creating a new world between the sea and sky for Sky Girl, who becomes the Earth's first person.

Tucker the Turtle Takes Time to Tuck and Think Albert Whitman & Company
