Including the National Songs of All the Countries in the World, in Both the Original Text and the English Translation Springer

“A must-read for anyone interested in Nicaragua—or in the overall issue of social change.”—Margaret Randall, author of SANDINO'S DAUGHTERS and SANDINO'S DAUGHTERS REVISITED Sandinista is the first English-language biography of Carlos Fonseca Amador, the legendary leader of the Sandinista National Liberation Front of Nicaragua (the FSLN) and the most important and influential figure of the post-1959 revolutionary generation in Latin America. Fonseca, killed in battle in 1976, was the undisputed intellectual and strategic leader of the FSLN. In a groundbreaking and fast-paced narrative that draws on a rich archive of previously unpublished Fonseca writings, Matilde Zimmermann sheds new light on central themes in his ideology as well as on internal disputes, ideological shifts, and personalities of the FSLN. The first researcher ever to be allowed access to Fonseca's unpublished writings (collected by the Institute for the Study of Sandinism in the early 1980s and now in the hands of the Nicaraguan Army),

Zimmermann also obtained personal interviews with Fonseca's friends, family members, fellow combatants, and political enemies. Unlike previous scholars, Zimmermann sees the Cuban revolution as the crucial turning point in Fonseca's political evolution. Furthermore, while others have argued that he rejected Marxism in favor of a more pragmatic nationalism, Zimmermann shows how Fonseca's political writings remained committed to both socialist revolution and national liberation from U.S. imperialism and followed the ideas of both Che Guevara and the earlier Nicaraguan leader Augusto César Sandino. She further argues that his philosophy embracing the experiences of the nation's workers and peasants was central to the FSLN's initial platform and charismatic appeal.

This book throws light on the relevance and role played by translations and translators at times of serious discontinuity throughout history. Topics explored by scholars from different continents and disciplines include war, the disintegration of transnational polities, health disasters and revolutions - be they political, social, cultural and/or technological. Surprisingly little is known, for example, about the role that translated constitutions had in instigating and in shaping political crises at both a local and global level, and how these events had an effect on translations themselves. Similarly, the role that translations played as instruments for either building or undermining empires, and the extent to which interpreters could ease or hamper negotiations and foster new national identities has not been adequately acknowledged. This book addresses all these issues, among others, through twelve studies focused not just on texts but also on instances of verbal and non-verbal communications in a range of languages from around the world. This interdisciplinary work will engage scholars working in fields such as Translation Studies, History, Modern Languages, English, Law, Politics and Social Studies.

From incorporating family rituals and cultural traditions into your wedding to booking a "heritage honeymoon," *Viva el Amor* is the only book that the Latina bride-to-be will need to plan a fabulous fiesta while celebrating the sacred bond of marriage. With the inspiring ideas, realistic timetables, and practical advice of *Viva el Amor*, brides and their families will discover -- and rediscover -- the wealth of Latino traditions that add depth and meaning to a wedding ceremony, and find ways to add modern touches. In an entertaining and informative style, Edna R. Bautista explains the significance of such customs as the thirteen coins (las arras) and the cord (el lazo) used in the marriage ceremony, the selection of godparent-sponsors (padrinos) for support during the nuptial festivities, and the Latina-Catholic tradition of carrying three bridal bouquets. All the practical aspects of making the day perfect are here, too, including: Preparing a wedding-planning calendar Setting up a reasonable budget and gift registry Planning a menu of traditional foods Adorning the wedding party in traditional cultural dress and accessories Choosing music for the reception that will appeal to both young and old guests With all the steps involved in planning a customary Latino-Christian wedding or an interfaith one -- from ethnic dances to the toast -- *Viva el Amor* is indispensable. This bilingual book is all the Latina bride-to-be will need to plan the wedding of her dreams.

Now Connolly is back with a sequel that sees him on the same stunning form, with his trademark razor-sharp dialogue and quick-fire violence, but also finding dark humor and pathos in the lives of violent men. From the London underworld, *Viva la Madness* moves to international crime with trans-Atlantic drug deals, money laundering, and high-tech electronic fraud, portrayed with the same uncanny believability. The anonymous hero of *Layer Cake* is pulled back into the drug game before he can escape to a sunny retirement. In a dazzling combination of London low-life, Caribbean high-life, and Venezuelan drug cartels toting machine-guns in Mayfair, our hero's voice and mission are authentic, thrilling, and whiplash-inducing in equal shares.

In this expertly crafted, richly detailed guide, Raymond Leslie Williams explores the cultural, political, and historical events that have shaped the Latin American and Caribbean novel since the end of World War II. In addition to works originally composed in English, Williams covers novels written in Spanish, Portuguese, French, Dutch, and Haitian Creole, and traces the profound influence of modernization, revolution, and democratization on the writing of this era. Beginning in 1945, Williams introduces major trends by region, including the Caribbean and U.S. Latino novel, the Mexican and Central American novel, the Andean novel, the Southern Cone novel, and the novel of Brazil. He discusses the rise of the modernist novel in the 1940s, led by Jorge Luis Borges's reaffirmation of the right of invention, and covers the advent of the postmodern generation of the 1990s in Brazil, the Generation of the "Crack" in Mexico, and the McOndo generation in other parts of Latin America. An alphabetical guide offers biographies of authors, coverage of major topics, and brief introductions to individual novels. It also addresses such areas as women's writing, Afro-Latin American writing, and magic realism. The guide's final section includes an annotated bibliography of introductory studies on the Latin American and Caribbean novel, national literary traditions, and the work of individual authors. From early attempts to synthesize postcolonial concerns with modernist aesthetics to the current focus on urban violence and globalization, *The Columbia Guide to the Latin American Novel Since 1945* presents a comprehensive, accessible portrait of a thoroughly diverse and complex branch of world literature.

The contributions in this book are partly based on papers given at the 7th congress of the European Society for Translation Studies, held at the University of Mainz in Gernersheim. For this publication, all papers have undergone a review process. In order to illustrate the variety of contents and approaches involved in the concepts of translation policy and politics, the chapters are organised thematically rather than chronologically. The objective in doing so was to show how policies influence a wide array of discursive practices. The first group of articles is concerned with the policy of translating and interpreting in power settings. A second group deals with translation policies as applied to a wide corpus of literary texts. A third group is devoted to the policies of media translation.

Saint John's poetry of love and joy describes the soul's passage through dark night to final illumination in mystical union with Absolute Being. The allegory the poet uses is that of earthly love, and the poems are strikingly effective on the immediate level of personal experience, quite apart from their theological meanings. Many critics regard the work of Saint John of the Cross (1542-91), the 16th-century mystic, to be among the finest poetry Spain has produced. This bilingual edition, the first in modern English, was originally published in hard cover in 1968 by the Indiana University Press. Most of these poems were written during a period of nine months, in 1577-78, when Saint John (San Juan de la Cruz) was imprisoned and tortured in the dungeon of a small Carmelite monastery in Toledo, and their recurrent motifs are both metaphysical and deeply personal.

And Other Wisdom for Aspiring Leaders New Directions Publishing

The Book of Revelation has always been a mysterious and intriguing book, describing in symbolic terms the confrontation between the Disciples of Christ and the powers - political and supernatural - that hold sway over the current age. Fundamentalists have been attracted to the book and have sought to decipher its strange symbols as coded prophecy of future events. But as Pablo Richard shows in *Apocalypse*, the most powerful readings of the Book of Revelation are through the eyes of the oppressed, living out their Christian faith in the context of the modern empire. It is they who identify most strongly with Revelation's ultimate message of hope and life in the midst of death

and persecution. *Apocalypse* first provides a general introduction to the reading of Revelation by examining three keys for its understanding: the historical, the sociological, and the literary-structural. The book then goes on to explore the whole of the Book of Revelation, following the book's own structure. Each section provides a line-by-line reading of the text, establishing the literal meaning before applying the interpretive keys already established.

"Given its reliance on a wide variety of linguistic elements, including sound effects and highly figurative language, poetry lacks a single formula for translation. Thus, this genre presents a significant challenge to translators, who must often choose which of these elements to preserve at the expense of others, and produces considerable variety among translations of the same work. This paper examines this complex process of poetry translation and particularly its impact on meaning by comparing the translations of Kieran Kavanaugh and Otilio Rodriguez (1964), Willis Barnstone (1972), and Loren G. Smith (2005) of sixteenth-century Spanish mystic San Juan de la Cruz' *Llama de amor viva*. Using these translators' approaches to meter and rhyme scheme, original metaphors, Spanish grammatical constructions lacking an equivalent in English, and individual problematic words as criteria of evaluation, this study concludes that although no translation entirely preserves the meaning of San Juan's original work, each effectively transmits part of this meaning through at least one of the above areas while simultaneously developing individual shades of meaning through others, thus emerging as both translation and independent poem" --Abstract.

This innovative interdisciplinary study compares the uses of painting in literary texts and films. In developing a framework of four types of ekphrasis, the author argues for the expansion of the concept of ekphrasis by demonstrating its applicability as interpretive tool to films about the visual arts and artists. Analyzing selected works of art by Goya, Rembrandt, and Vermeer and their ekphrastic treatment in various texts and films, this book examines how the medium of ekphrasis affects the representation of the visual arts in order to show what the differences imply about issues such as gender roles and the function of art for the construction of a personal or social identity. Because of its highly cross-disciplinary nature, this book is of interest not only to scholars of literature and aesthetics, but also for scholars of film studies. By providing an innovative approach to discussing non-documentary films about artists, the author shows that ekphrasis is a useful tool for exploring both aesthetic concerns and ideological issues in film. This study also addresses art historians as it deals with the reception of major artists in European literature and film throughout the 20th century.
