[7 Occult Money Rituals](#) The Archangelic Book of Ritual and Prayer
 Basic Conditions of Taoist Thunder Magic presents most basic concepts and practices of Thunder Magic (Wu-lei fa). In the Song period (12th ct.) Wu-lei fa was a label given to a vast section of specialised ritual practices in religious Taoism. These rituals incorporated and continued older exorcist ways and means that were part of the practical range of religious Taoisms, meeting the demands of an agrarian society that suffered from natural disasters (for example droughts and inundations). Thunder specialist were asked to pray for rain or clear skies, disperse demoniac molestations and ensure a harmonious life. The book is largely based on materials attributed to the school of Wang Wen-ch'ing who was a famous promoter of Wu-lei fa at the court of emperor Sung Hui-tsung. Wang Wen-ch'ing and his followers succeeded in combining the southern traditions of internal alchemy (nei-tan) with exorcist practices. These Taoists also attempted to work out and describe the scientific foundation of Thunder Magic rituals (Wu-lei fa) in terms of astronomy and other emblematic expressions. The theoretical and actual sublimation of exorcist practices was in tune with scholarly tendencies and standards of the time. It was also an attempt to gain or bolster official acceptance.

Society and the Supernatural in Song China is at once a meticulous examination of spirit possession and exorcism in the twelfth and thirteenth centuries and a social history of the full panoply of China's religious practices and practitioners at the moment when she was poised to dominate the world economy. Although the Song dynasty (960-1276) is often identified with the establishment of Confucian orthodoxy, Edward Davis demonstrates the renewed vitality of the dynasty's Taoist, Buddhist, and local religious traditions. He charts the rise of hundreds of new temple-cults and the lineages of clerical exorcists and vernacular priests; the increasingly competitive interaction among all practitioners of therapeutic ritual; and the wide social range of their patrons and clients.

 "This is the perfect introductory text for readers who wonder what the works-rather than the myth-of Aleister Crowley are all about. Some of the myths that have surrounded Crowley's life and legend are dispelled and the practice of rituals themselves are explored, in plain English, along with commentary from the author"--

The Ascended Masters Book of Ritual and Prayer University of Hawaii Press

In the hills of China's central Hunan province, an anxious young apprentice officiates over a Daoist ritual known as the Banner Rite to Summon Sire Yin. Before a crowd of masters, relatives, and villagers—and the entire pantheon of gods and deceased masters ritually invited to witness the event—he seeks to summon Celestial Lord Yin Jiao, the ferocious deity who supplies the exorcistic power to protect and heal bodies and spaces from illness and misfortune. If the apprentice cannot bring forth the deity, the rite is considered a failure and the ordination suspended: His entire professional career hangs in the balance before it even begins. This richly textured study asks how the Banner Rite works or fails to work in its own terms. How do the cosmological, theological, and anthropological assumptions enshrined in the ritual itself account for its own efficacy or inefficacy? Weaving together ethnography, textual analysis, photography, and film, David J. Mozina invites readers into the religious world of ritual masters in today's south China. He shows that the efficacy of rituals like the Banner Rite is driven by the ability of a ritual master to form an intimate relationship with exorcistic deities like Yin Jiao, which is far from guaranteed. Mozina reveals the ways in which such ritual claims are rooted in the great liturgical movements of the Song and Yuan dynasties (960-1368) and how they are performed these days amid the social and economic pressures of rural life in the post-Mao era. Written for students and scholars of Daoism and Chinese religion, Knotting the Banner will also appeal to anthropologists and comparative religionists, especially those working on ritual.

Ethnography in China Today Routledge

In 142 CE, the divine Lord Lao descended to Mount Cranecall (Sichuan province) to establish a new covenant with humanity through a man named Zhang Ling, the first Celestial Master. Facing an impending apocalypse caused by centuries of sin, Zhang and his descendants forged a communal faith centering on a universal priesthood, strict codes of conduct, and healing through the confession of sins; this faith was based upon a new, bureaucratic relationship with incorruptible supernatural administrators. By the fourth century, Celestial Master Daoism had spread to all parts of China, and has since played a key role in China's religious and intellectual history. *Celestial Masters* is the first book in any Western language devoted solely to the founding of the world religion Daoism. It traces the movement from the mid-second century CE through the sixth century, examining all surviving primary documents in both secular and canonical sources to offer a comprehensive account of the development of this poorly understood religion. It also provides a detailed analysis of ritual life within the movement, covering the roles of common believer or Daoist citizen, novice, and priest or libationer.

This book is a new approach to how we in the West understand China and Chinese culture. It challenges the master narrative of Confucianism and shows that ancestor worship has underpinned Chinese culture in many influential and vital ways and provides a nuanced and more efficacious paradigm through which Chinese culture may be viewed. It is an exposition and analysis of Chinese ancestor worship and its correlations, especially filial piety and ritual, and it shows the intrinsic importance of ancestor worship to Chinese culture. By using a practice theoryâ "ritualâ "and communication theory approach this work highlights the relationship between the rituals of ancestor worship and their meaning within Chinese culture. In emphasizing the efficacy of ritual to cultural meaning it also questions and compares the master narrative of Confucianism in its role as the prime cultural symbol and paradigm of Chinese culture. China and Chinese culture is conventionally understood by the West through the paradigm and its articulated discourse of Confucianism. In order to ameliorate and overcome the epistemological problematic of a cross-cultural understanding of China, a new approach to the understanding of China and Chinese culture is proposed. The thesis approach is â ~meta-disciplinaryâ (TM) and multi-viewed, and draws on a range of evidence and theories which focus on the problematic of â ~cross-cultural understanding.â (TM)

Zhenwu, or the Perfected Warrior, is one of the few Chinese Deities that can rightfully claim a countrywide devotion. Religious specialists, lay devotees, the state machine, and the cultural industry all participated, both collaboratively and competitively, in the evolution of this devotional movement. This book centres on the development and transformation of the godhead of Zhenwu, as well as the devotional movement focused on him. Organised chronologically on the development of the Zhenwu worship in Daoist rituals, state religion, and popular practices, it looks at the changes in the way Zhenwu was perceived, and the historical context in which those changes took place. The author investigates the complicated means by which various social and political groups contested with each other in appropriating cultural-religious symbols. The question at the core of the book is how, in a given historical context, human agents and social institutions shape the religious world to which they profess devotion. The work offers a holistic approach to religion in a period of Chinese history when central, local, official, clerical and popular power are constantly negotiating and

reshaping established values.

Here are some of the Kindle Reviewers' comments; "Just finished reading this book and was enthralled by the explanation for time keeping and method of learning. I'm far from the best for remembering long passages so this will help and I will put it to the test. I've just passed to 2nd degree & will start on the 1st degree charge just so I know it. As you can imagine it's a fairly long piece and when you're standing there it's a bit daunting. Thank you for writing this and now I can use this method for future reference". - Mr G. 28 July 2013 "I wish this was available when I first joined the Craft! Essential guidance for both the new Freemason who is daunted by the work that may lie ahead, but also the seasoned ritualist whose advancing years have made it more difficult to recall and retain like he used to! Also a useful tool for Lodge Mentors to have in their armoury to encourage the less experienced mason to progress" - Jim Tull, 28th June 2013 "This book was written mostly for brothers working under the Grand Lodge of England, so the terms used for the various parts of the work, as well as some of the officers' titles can be confusing to those of us in the southern U.S., but Brother Smith still delivers a good lecture on both the joys and importance of the ritual, as well as an effective means to help learn and polish your parts. My mentor took me by a slightly different path, but I still recognized some of the things they made me do; this book offered more light on why to do it that way, and some options to improve the process. An excellent essay, and we'll worth the modest price. I'm sure these methods can be applied to all types of learning. Give it a try!" - Thomas E Ezell, July 2nd 2013 Click on Look Inside to read the first chapter FREE

The Master's Ritual Llewellyn Worldwide

This is a study in oral poetic composition. It examines how oral poets compose their recitations. Specifically, it is a study of the recitations of 17 separate master poets from the Island of Rote recorded over a period of 50 years. Each of these poets offers his version of what is culturally considered to be the 'same' ritual chant. These compositions are examined in detail and their oral formulae are carefully compared to one another. Professor James J. Fox is an anthropologist who carried out his doctoral field research on the Island of Rote in eastern Indonesia in 1965-66. In 1965, he began recording the oral traditions of the island and developed a close association with numerous oral poets on the island. After many subsequent visits, in 2006, he began a nine-year project that brought groups of oral poets to Bali for week-long recording sessions. Recitations gathered over a period of 50 years are the basis for this book.
