ATKINSON MIDDLETON

A Catalogue of Manuscripts Known to Contain Old English Dry-Point Glosses

MHRA

This book offers a corpus-based comparative study of an almost entirely unexplored set of multi-word lexical items serving pragmatic or text-structuring functions. Part One provides a descriptive account of multi-word discourse markers in written English, French and German, focussing on discussion of interlingual equivalence. Part Two examines the use of multi-word markers by non-native speakers of English and discusses lexicographical and pedagogical implications.

Pauline Language and the Pastoral Epistles Cambridge University Press

This corpus-based study examines the lexical field of theft in the Anglo-Saxon law-codes and documents containing reports of lawsuits (charters, writs, and some chapters of the Anglo-Saxon Chronicle). The individual Old English lexemes are analysed not only in terms of their meaning, collocation patterns, and Latin translations, but also, more unusually in a field-approach, with reference to their distribution over the various textual genres and the discourse strategies dominant in these. Although primarily linguistic in focus, a detailed description of the theft-offences and the wider context in which they occur should also be of interest to the historian.

Na Klar! 1 - Student's Book BRILL

Eleven major scholars of the Anglo-

Saxon period consider Alfred the Great, his cultural milieu, and his achievements. With revised or revived views of the Alfredian revival, the contributors help set the agenda for future work on a most challenging period.

English Historical Linguistics 1992

Waxmann Verlag

Niveau A1 bis C1 Wer in Englisch auf mittlerem und gehobenem Sprachniveau mitreden möchte, benötigt dafür den entsprechenden aktuellen Wortschatz. Der Große Lernwortschatz Englisch aktuell bietet rund 15.000 Wörter in 20 Haupt- und ca. 150 Unterkapiteln. Der Gebrauch der Wörter wird mittels häufig auftretender Wortverbindungen und Beispielsätzen verdeutlicht. Dazu gibt es zahlreiche Extras, die das Lernen und Nachschlagen erleichtern, wie z. B. ein zweifaches Register (Englisch und Deutsch), eine Kurzgrammatik, Hinweise zur Aussprache und vieles mehr.

Bilingualism and the Latin Language

Hueber Verlag

Nach Themengebieten geordnet finden sich im Großen Lernwortschatz Business English die wichtigsten Vokabeln und Redewendungen, um beispielsweise Import/Export-Geschäfte effizient abzuwickeln, die Jahresbilanz in gutem Englisch zu präsentieren oder eine Konferenz reibungslos über die Bühne zu bringen. Der topaktuelle Wortschatz von über 10.000 Wörtern wird jeweils im Zusammenhang mit Beispielsätzen abgebildet und ins Deutsche übersetzt, so dass leicht verständlich und systematisch die englische Fachterminologie gelernt werden kann.

Speaking Better English John

Benjamins Publishing

Since the 1980s, bilingualism has become one of the main themes of sociolinguistics - but there are as yet few large-scale treatments of the subject specific to the ancient world. This book is the first work to deal systematically with bilingualism during a period of antiquity (the Roman period, down to about the fourth century AD) in the light of sociolinguistic discussions of bilingual issues. The general theme of the work is the nature of the contact between Latin and numerous other languages spoken in the Roman world. Among the many issues discussed three are prominent: code-switching (the practice of switching between two languages in the course of a single utterance) and its motivation, language contact as a cause of change in one or both of the languages in contact, and the part played by language choice and language switching in the establishment of personal and group identities.

English Historical Linguistics. Volume 2

John Benjamins Publishing Company
The series *Studia Linguistica Germanica*, founded in 1968 by Ludwig Erich Schmitt and Stefan Sonderegger, is one of the standard publication organs for German Linguistics. The series aims to cover the whole spectrum of the subject, while concentrating on questions relating to language history and the history of linguistic ideas. It includes works on the historical grammar and semantics of German, on the relationship of language and culture, on the history of language theory, on dialectology, on lexicology / lexicography, text linguistics and on the location of German in the European linguistic context.

Beiträge zur Geschichte der Sprachwissenschaft Walter de Gruyter GmbH & Co KG

This volume brings together a selection of 28 out of the 76 papers read at ICHEL-7 in Valencia. The book opens with a general section, in which Richard Hogg examines the relationship between linguistics and philology, Enrique Bernárdez analyzes syntactic change from the point of view of catastrophe theory, Roger Sell suggests a pragmatic analysis of historical data, and Norman Blake and Jacek Fisiak re-open the debate on periodization in the history of English. The rest of the papers is grouped in four sections: Phonology and Writing, Morphology and Syntax, Lexicology and Semantics, and Varieties of English and Studies on Individual Texts. An index of names and a subject index complete the volume.

A Bibliography of Writings on the English Language from the Beginning of Printing to the End of 1922 Cambridge University Press

Englischer Lernwortschatz mit ca. 1.500 Vokabeln und Wendungen zur mündlichen Kommunikation, für Schüler, Lernende und Lehrende.

The Proto-Germanic n-stems. Rodopi
Don't let them drop German! A major growing concern in schools is the decline in the number of language students and the impact this could have on your department. Which is why we've developed Na klar! - the only course to captivate all your students and help keep German alive in your school!

Großer Lernwortschatz Business English aktuell Peter Lang

The book examines the word order of two Old Germanic languages, Old English and Old High German, using a corpus containing samples of three text types: poetry, original prose and translated prose. Thanks to this methodology, it is possible to compare word order patterns in Old English and Old High German,

eliminating differences which may be due to stylistic or technical reasons (rhythm, rhyme, Latin influences), as well as to see to what extent text type determines word order and to check whether this phenomenon is universal (triggering similar behaviour in both analysed languages). The book also disproves the hypothesis of the West Germanic syntax, presenting data which show that the word order of the two languages started to diversify already during the Old English/High German period, i. e. before the 11th century AD.

Großer Lernwortschatz Englisch aktuell
Narr Francke Attempto Verlag
Lexiographica. Series Maior features monographs and edited volumes on the topics of lexicography and meta-lexicography. Works from the broader domain of lexicology are also included, provided they strengthen the theoretical, methodological and empirical basis of lexicography and meta-lexicography. The almost 150 books published in the series since its founding in 1984 clearly reflect the main themes and developments of the field. The publications focus on aspects of lexicography such as micro- and macrostructure, typology, history of the discipline, and application-oriented lexicographical documentation.

Influence of Text Type on Word Order of Old Germanic Languages Ernst Klett Sprachen

This is the first study to demonstrate the impact of Puritan literature on the development of German language and literature in the seventeenth century and beyond. It crosses the boundaries of theology, literature, and the English and German traditions to show that eighteenth-century secular thinking on introspection, psychology and subjectivity has its roots in vocabulary

used in Germany as early as 1665 through the translation of figures such as Daniel Dyke and Richard Baxter. The book concludes with insights on John Bunyan, whose works inspired writers of the Geniegeneration such as Lenz, Wieland, Moritz and Jung Stilling.

The English Dictionary before Cawdrey
Narr Francke Attempto Verlag

Methods of linguistic data collection are among the most central aspects in empirical linguistics. While written questionnaires have only played a minor role in the field of social dialectology, the study of regional and social variation, the last decade has seen a methodological revival. This book is the first monograph-length account on written questionnaires in more than 60 years. It reconnects – for the newcomer and the more seasoned empirical linguist alike – the older questionnaire tradition, last given serious treatment in the 1950s, with the more recent instantiations, reincarnations and new developments in an up-to-date, near-comprehensive account. A disciplinary history of the method sets the scene for a discussion of essential theoretical aspects in dialectology and sociolinguistics. The book is rounded off by a step-by-step practical guide – from study idea to data analysis and statistics – that includes hands-on sections on Excel and the statistical suite R for the novice.

Catalogue of Sources for a Linguistic Atlas of Early Medieval English Cambridge University Press

This catalogue is a state-of-knowledge list of the English written between c 1150 and 1300, whether later versions of Old English texts or original early Middle English. With over 500 entries relating to manuscripts containing writing in English, it describes in detail

literary material, both prose and verse, documentary texts, and glosses. The catalogue draws together an extensive body of information only available up to now from widely scattered sources. As well as being listed by their repositories, the manuscripts are also separately indexed by text. Information is provided on dates, hands, manuscript associations and language. Also given are references to editions and secondary literature.

Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971 Walter de Gruyter GmbH & Co KG

The n-stems are an intriguing part of Proto-Germanic morphology. Unlike any other noun class, the n-stems have roots that are characterized by systematic consonant and vowel alternations across the different Germanic dialects. This monograph represents a diachronic investigation of this root variation. It traces back the Germanic n-stems to their Indo-European origin, and clarifies their formal characteristics by an interaction of sound law and analogy. This book therefore is not just an attempt to account for the typology of the Germanic n-stems, but also a case study of the impact that sound change may have on the evolution of morphology and derivation.

A Companion to Alfred the Great
CUP Archive

Mit diesen abwechslungsreichen Arbeitsblätter, Rätseln und Spielen sind Sie für den Englischunterricht bestens ausgestattet. Die motivierenden

Kopiervorlagen erweitern und festigen mit spielerischen Übungen den Wortschatz, trainieren gezielt grammatische Strukturen und schulen das Sprachverständnis anhand von Dialogen. Auch das Verfassen von eigenen Texten wird angeregt. Die Schüler erwerben fachspezifische Arbeitsweisen und Lerntechniken, z. B. zur Wortschatzaneignung, und wenden durch die vielgestaltigen Aufgaben- und Interaktionsformen ihre Sprachkenntnisse in unterschiedlichen Zusammenhängen an. Die praxiserprobten Kopiervorlagen können Sie lehrwerksunabhängig ohne zusätzlichen Arbeits- und Zeitaufwand direkt einsetzen. Lösungsseiten runden den Band ab.

Wortschatz und Schreibkompetenz

Walter de Gruyter

Der angemessene Gebrauch sprachlicher Mittel bei der Textproduktion ist eine schulische Anforderung, der sich Schülerinnen und Schüler der Sekundarstufe I täglich stellen müssen. Jedoch ist die Rolle des Wortschatzes während des Schreibens ein in der empirischen Schreibforschung bisher vernachlässigtes Gebiet. Dieser Band liefert eine Übersicht über den aktuellen, auch internationalen, Forschungsstand beider Fähigkeitsbereiche. Er geht zudem der Frage nach, inwiefern der Wortschatz als ein Teil bildungssprachlicher Kompetenz mit der Qualität eines Textes zusammenhängt. Dafür werden Instruktions- und Berichtstexte von 277 Schülerinnen und Schülern der 5. und 9. Klassenstufe aus drei verschiedenen Schularten empirisch untersucht. Dr. Moti Mathiebe studierte Lehr- und Forschungslogopädie an der RWTH Aachen und ist Wissenschaftliche Mitarbeiterin am Institut für Psychologie der Leibniz Universität Hannover.

Letter Writing and Language Change
BRILL

Was Wort und Wortschatz sind, scheint auf den ersten Blick völlig unstrittig. Aber der sicher geglaubte Begriff des Worts wandelt und verschiebt sich hin zu Wortfügungen und Wortelementen, wenn Methoden aus Mündlichkeitsforschung, kognitiver und Korpuslinguistik einbezogen werden. Das Wort und der Wortschatz, verstanden als beziehungsreiches Gefüge zwischen den nur scheinbar isolierten Einzelwörtern, werden in sprachsystematischen wie anwendungsbezogenen Perspektiven beleuchtet: Bestandteile, aus denen Wörter bestehen, mehr oder weniger feste Wortverbindungen, Wörter in Satz- bzw. Äußerungszusammenhang;

Wortschätze betrachtet nach Umfang, Zusammensetzung und Anwendungszweck; Wörter in visuellen Kontexten; Bedeutung und Begriff; Wörter und Wortschätze in sprachkritischer, in diachroner Sicht, in der Rechtschreibung, in der Schönen Literatur, im Wortschatzerwerb und im Wörterbuch. Notwendigerweise wird besonderes Augenmerk auf die aktuelleren methodischen Möglichkeiten wortbezogener Forschung gelegt, insofern sie maßgeblich zu einem flexibilisierten, dynamischen Verständnis des Worts beigetragen haben und beitragen. Die Handbuchbeiträge verbinden grundlegende Informationen zum jeweiligen Thema mit aktuellen Forschungsperspektiven.
